Professional Summary:
Analytical and solution-driven Computer Engineering student with strong **problem-solving** and **critical thinking** abilities, combined with hands-on experience in full-stack web development. Skilled in building secure, scalable applications using the MERN stack (MongoDB, Express.js, React, Node.js). Demonstrated ability to design responsive user interfaces and develop efficient backend systems using **REST APIs**. Passionate about creating impactful tech solutions and continuously improving through self-learning and real-world project implementation.

INTERNSHIPS

Uptoskills   05/2024 - Present
Intern

AI Interview Management System - Web Developer (Intern)
- **Integrated real-time IP geolocation tracking** in a **Node.js + React** interview platform using a public API, capturing **IP address, region, and ISP data** to support candidate analysis and insights.
- **Enhanced frontend UI** with **React and Tailwind CSS**, refining button styles (color, width) for improved visual consistency and **user experience**.

PROJECTS

Application Tracking System(ATS): https://github.com/Rprog-06/ATS-MERN-PROJECT   04/2025 - 06/2025
- Built a full-stack ATS using **MongoDB,Express.js,React.js,** and **Node.js** to manage job applications and users.
- Designed a responsive, animated UI with React.js and **Tailwind CSS.**
- Implemented **JWT authentication** and role-based access for Admin, HR, and Candidate roles.
- Developed RESTful APIs for job postings, applications, and user management.
- Used Mongoose to interact with **MongoDB,** following the MVC architecture and version control with **Git & GitHub**.

Expense Tracker: https://github.com/Rprog-06/Expense-Tracker   02/2025 - 03/2025
- Designed and developed a Full-stack web application to track and manage daily expenses.
- Implemented user authentication system with secure registration and login features.
- Enabled users to add, update, delete, and categorize expenses with real-time tracking.
- Created a responsive and modern UI using **HTML, CSS, Bootstrap.**
- Used **Django** as the backend framework to handle routing, logic, and database operations.
- Managed data storage and retrieval with **SQL(SQLite)** for income,expense and user-specific records

EDUCATION

Bachelor of Engineering in Computer Engineering

Met Institute of Engineering GPA: 8.28

Honors in Data Science

CERTIFICATIONS

Spoken Tutorial **Python,C++** and **Java**

IIT Bombay

AWS Academy Cloud Foundations and Cloud Architecting

AWS Academy
